

A new creation

Truly luxurious pillows and duvets

VISPRING

Luxury Beds - London 1901

The pillows and duvets you choose for your Vispring bed are an essential part of creating the perfect haven of sleep.

Just like our beds, it's nature's gifts that make our pillows and duvets so deeply inviting and comfortable, generously filled with the most luxurious feathers and downs to create cosy warmth and natural air circulation – the recipe for a perfect night's sleep.

Hygienic. The down and feathers have been carefully sanitized, dried and selected to guard against allergies.

Eco-friendly. A natural product, produced with organic and biodegradable materials.

Downproof. High quality fine weaves prevent feathers and down from penetrating the fabric, helping to keep the product in perfect condition.

Fill Power

A measure how well the duvet retains its shape, how well it insulates and how light it is.

The Duvet Collection

Discover the extravagantly soft, cosy, breathing duvets your Vispring bed deserves.

Vispring Hungarian Goose Down Duvet; What makes it special

- 100% Hungarian Goose Down Duvet for exceptional comfort and warmth
- Excellent recovery and voluminosity for maximum comfort
- High Fill Power for exceptional insulation and air circulation
- 100% Cotton Satin covers with extremely high 395 thread count for a beautiful satin sheen and touch and protection against feathers penetrating the fabric
- Weight: 190 g/m²

Pyrenean Duck Feather and Down Duvet; What makes it special

- Sourced from Pyrenean ducks with naturally bigger plumes; feathers and down that are exceptionally insulating and soft
- A luxurious combination of 90% Pyrenean duck down and 10% Pyrenean duck feathers
- 100% Cotton Satin supremely soft duvet cover with tightly woven 240 thread count
- Weight: 220 g/m²

The Pillow Collection

To complement the finest beds in the world, we have created a collection of luxuriously supportive pillows, using only the finest natural materials with real Fill Power, enhanced by Vispring Comfort Chamber technology.

Comfort Chamber technology

Outer Chambers:

90% down, 10% feather filling to provide a wonderfully soft and breathable layer.
